Dear Sir

AC91-16 Submissions

On 6 July 2010 I advised that your submission on the new Advisory Circular AC91-16 Piston Engine Escalation Procedures, had been received and all submissions would be summarised. The Summary of Public Submissions is now complete and enclosed is a copy for your reference. Changes are now being made to the Advisory Circular, taking into consideration the submissions received.

Again thank you for taking the time to comment.

Yours faithfully

John Bushell
Airworthiness Coordinator
