

Welcome!

Welcome to everyone attending this year's aviation conference in Wellington.

This year's Leadership Summit theme is 'Meeting tomorrow's challenges and succeeding today'. We're covering some of the bigger issues facing the industry's growth, but giving you advice on steps to be taken now, to ensure you are still in business in the longer term!

The divisional conferences are more about what is happening in the 'here and now' with some good direction on helping you to become more resilient. Resilience is the theme for the NZAAA, NZHA and Training and Development conferences. We've been fortunate to get so many good speakers.

Enjoy the socialising too, catching up with old mates and making new friends. It is often that informal talking that brings the real benefits of such conferences.

If you have questions or need help, just ask us. The three main contacts are John Sinclair (0273142151), Andrew Nicholson (0272802008) or me (0276009156).

We all look forward to catching up with you during the conference.

John Nicholson
Chief Executive – Acting

NZAAA/NZHA Conference Speakers

Nathan Guy – Minister for Primary Industries and Racing

Since 2009 he has been the Minister of Internal Affairs, Immigration and Veteran Affairs, as well as the Associate Minister of Justice and Transport. He has now been Minister for Primary Industries and Racing for over three years.

Jaqueline Rowarth – The University of Waikato

Bachelor of Agricultural Science and PhD in Soil Science, Massey University.

I've taught at Lincoln, Massey, University of Melbourne and now University of Waikato. My raison d'être is enabling students to realise futures where they can make a contribution through knowledge, enthusiasm and determination, whilst dispelling misunderstandings in society through media comment...

Doug Avery

Smashed by years of drought, eastern Marlborough farmers Doug and Wendy Avery realised they needed to build a more resilient farming model. The result of this journey is that the farm that struggled is now a hugely successful business. In 2008 they won the Green Ribbon award for leadership in improving drought affected land. The Avery family were South Island Farmers of the Year in 2010 and Marlborough District Council Environment Award winners in 2011. In 2012 Doug was made a Land Care Ambassador by the NZ Land Care Trust and in 2013 Doug was named Landcorp Agricultural Communicator of the Year.

Glen Eastlake

Glen is a semi-retired aviation professional with over 30 years of experience in the Australasian aviation industry. His background also includes information technology (software development) and television production.

Joe Dewar – CAA

Joe works in the intelligence and risk analysis unit of the CAA. Since 2013 Joe has worked with the NZHA on our ongoing accident analysis project. The goal of the project is to analyze the safety data from the industry and then to distribute the information to operators. The project is guided by the principle that information is critical to improving the safety resilience of operators.

Mark Daniels

Mark Daniels is a licenced Business Coach, Business Trainer and Seminar Presenter with Action Coach Business Coaching.

He has more than three decades of experience in business and management. Mark is professionally qualified with two Master of Science degrees.

Philippa Gander – Sleep/Wake Research Centre

Philippa is the Director of the Sleep/Wake Research Centre at Massey (Wellington). She has extensive experience as a scientific consultant working with industry, unions and regulators and as an expert witness in fatigue-related accident investigation and legal cases. Recognition for her work in aviation includes a NASA Group Achievement Award for the work of the Fatigue Countermeasures Program (1993), being on the ICAO Taskforce that developed the new global regulatory framework for fatigue risk management and leading the writing team for both editions of the IATA/ICAO/IFALPA guidance manual for operators

Lloyd Klee – Aviation Safety Supplies Ltd

Klee has been involved in both Marine and Aviation Safety for thirty years.

Lloyd will update you on his research for ELT antenna survivability and what needs to happen to allow a better outcome for ELT activations

Geraint Bermingham – Navigatus Consulting

Geraint has about 35 years of formal risk and safety management experience across many high-threat sectors including aviation, marine, and nuclear. This has been in operational and management roles as well as consulting to private and government organisations. Included among these have been roles such as submarine squadron safety officer at what was then Europe's largest industrial site, Manager Operational Risk at Air New Zealand, Safety Officer for Svitzer BV during the Rena recovery.

John Rasmussen

John has a farming, forestry and rural fire background and has spent 23 years in working management roles within the commercial forest industry and 25 years working within the rural fire industry with the National Rural Fire Authority.

John has worked on a number of significant projects during his career including leading the NZ project on the Coordinated Incident Management System (CIMS) and assisting in the development and introduction of the Standard for Use of Aircraft at Wildfires.

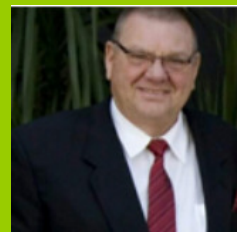

Harry Maher

"Early working days I had a lot of fun working for 10 years as a ski patroller, heli-ski guide and white-water raft guide. Then 22 years with DOC from 1990 in a variety of concessions and commercial roles. Recently did 3.5 years as CEO of LandSAR and have returned this year to DOC as Director, Health & Safety. My role is to build and maintain the systems and behaviours that keep DOC staff, contractors and volunteers safe from harm. "

John Fysh - RMF CONSULTING (NZ) Limited

John Fysh has in excess of 29 years' experience in the OHS field. Established in 1989 RMF Consulting Services Pty Ltd has provided practical support and advice in the OHS field to more than 1500 businesses across Australasia & the Pacific Region with compliant safety management system in that time.

Mark Price – CAA

Mark has worked as a LAME in GA, mostly in Agriculture. He joined CAA in 2000 and worked in a number of operational roles.

He left CAA in 2012 to work within a safety management environment, as a Safety and Quality Manager, for a closed-charter aviation operation in Papua New Guinea, supporting oil, gas and mineral exploration companies. After gaining a broad working knowledge of applying safety management systems in an operational environment, he returned to CAA in 2013.

Arden Jennings

I have been involved in Aviation insurance for 30 years and have gained valuable experience from many of the Aviation underwriters at Lloyd's whom I visit every year. The big advantage I find in New Zealand is the ability to interface with many operators in the Aviation Industry to learn many of the important challenges that aviation people face and have to deal with. Insurance is one of the costs that operators need to deal with and also to obtain the required cover for their particular role, whether they are aircraft owners or provide one of the many services.

Bill MacGregor – CAA

Bill spent 28 years in the RNZAF as a pilot flying predominantly helicopters (Sioux and Iroquois) and fixed wing aircraft (Harvard, Devon, Airtrainer, Airtourer). Since leaving the air force Bill has spent time as Director of Civil Aviation in Solomon Islands and Niue plus advisor on aviation regulation in various Pacific Island States. Bill joined CAA as Principal Aviation Examiner (PAE) in February 2014.

Jim Burtenshaw – CAA

Jim is a dedicated aviation professional who enjoys working in the complex socio-technical environment of aviation. He is passionate about aviation safety and ensuring the New Zealand skies are safe and secure. He is currently the Civil Aviation Authority's Safety Investigation Unit Manager and the CAA's representative for the NZAAA's Down to the Wire campaign. Jim has an aeronautical engineering background through time in the New Zealand Air Force and has completed a degree focusing in aircraft accident investigation and aviation human factors.

Aviation Leadership Summit Speakers

Martin Matthews – Secretary of Transport

Martin Matthews is the Secretary for Transport and the Chief Executive of the Ministry of Transport. He has held this position since September 2008, and finishes a few days after the conference ends.

Martin was previously the Chief Executive of the Ministry for Culture and Heritage and before that, Assistant Auditor-General.

Nigel Gould – Chairman, CAA

Nigel is a Fellow of both the New Zealand Institute of Chartered Accountants and the Institute of Directors. In 2010 he was appointed Officer of the New Zealand Order of Merit.

Nigel played a key role in establishing Massey University in Wellington and was Chancellor of Massey until 2008. Other appointments have included Chairman of Centreport, President of the Wellington Regional Chamber of Commerce, and subsequently New Zealand President, and Commissioner of the Tertiary Education Commission. Nigel was appointed Chairman of the Civil Aviation Authority in 2011.

Graeme Harris – Director, CAA

Harris began his career in the RNZAF where he finished in the role of commanding officer, Avionics maintenance squadron. He joined Transpower for a time and took his first role with CAA in 1988 as Team Leader Airline Surveillance. In 2000 he was appointed Quality Assurance and Risk Manager at Mount Cook Airlines. Graeme returned to CAA in 2004 as General Manager Personal Licensing and Aviation Services. He has been Chief Executive and Director of CAA since 2012.

Steve Moore – GM CA, CAA

Before taking up his present position in 2013, Steve was Assistant Chief of Defence Strategic Commitments and Intelligence. Most of Steve's military flying career has been associated with the Air Combat Force flying the A-4K Skyhawk and BAC-167 Strikemaster. He flew the Iroquois for a short period, including a seven-month tour in the Sinai Desert as part of the New Zealand Contingent to the Multinational Force and Observers, and an exchange with the United States Navy in Antarctica.

Steve is a qualified flying instructor and a graduate test pilot from the United Kingdom's Empire Test Pilot School.

Neil Richardson – Principal Consultant

Neil Richardson provides highly specialist advisory services to senior management teams and technical experts across Operators, Maintenance organisations and Regulatory Authorities. He has over 20 years experience in civil and military aviation and offers clients a wealth of safety expertise in the maintenance and engineering world.

Neil began his aviation career with the Royal Air Force gaining experience as an Airframe Technician, civilian Aircraft Maintenance Engineers Licences in Airframes and Engines.

Brett Murray – GM, Worksafe

Brett Murray joined the former Department of Labour in 2004, and previous roles have included Regional Manager for Central Region, heading the investigation into the Pike River mine tragedy and General Manager National Services and Support.

Earlier in his career, he spent 15 years working within the NZ Police in various roles, and also spent time running his own business.

Mike Impey - CAA

A warranted health & safety inspector and HSNO enforcement officer, Mike is the Chief Inspector and Manager of the Health & Safety Unit at the Civil Aviation Authority of New Zealand, a team tasked with applying and enforcing the national health and safety and HSNO legislation in and on operational aircraft.

Previous employers in a safety leadership role include a power generation and retail company, a well-known ice cream manufacturer and a large steel mill. Prior to that Mike worked for several major international airlines in senior operations and engineering management positions.

Ray Thorpe – General Manager Aviation Sales, MetService

Ray qualified as a meteorologist in South Africa. He moved to New Zealand and his career with MetService began in the early 1990s when he was employed in the Whenuapei operation. Ray subsequently moved to Wellington where he has taken on further responsibilities including in the international market.

Don McCracken – CEO, Oceania

Don has 25 years of experience in the industry. He has become an expert in team building, engineering, management and aviation products. At Oceania Aviation he oversees 194 employees across New Zealand, deals with offshore businesses in Asia and the Pacific coast of Australia, provides team leadership, and drives business growth, production and profit. In five years, he would like to expand the business into the Asia-Pacific region.

Don has a passion for aviation. He became involved in the industry after 11 years' experience in the engineering industry when he found an interest for aviation and decided to become a licensed engineer. Don is also a quality assurance lead auditor and has technical qualification in heavy engineering. He has a diploma in aeronautical engineering.

Steve Smyth – Director, New Southern Sky

Steve Smyth is originally from the UK where as an RAF officer, he flew Phantoms and Tornado fighters as a navigator. In his last RAF role Steve was responsible for the RAF's operational test and evaluation programme, which included preparing Typhoon fighters ready for service.

In 2006, Steve was recruited by the RNZAF as a civilian to manage the Introduction into Service programme for the upgrade or replacement of every operational aircraft and supporting system. In July 2014, Steve joined CAA, as Director – New Southern Sky.

Ashok Poduval - Head of School, Massey University School of Aviation

Ashok Poduval has a wealth of aviation industry experience, with over 12,000 hours of airline jet flying experience as a training captain on A320 and B737 aircraft and holds a current New Zealand ATP and Instrument rating. He has held various senior management positions in Gulf Air, and was the Director of Flight Operations and Safety Services with IATA for a number of years.

Hon Simon Bridges – Minister of Transport

In 2014, Hon Simon Bridges MP was appointed Minister of Energy and Resources, Minister of Transport, Associate Minister for Climate Change Issues, Associate Minister of Justice and Deputy Leader of the House.

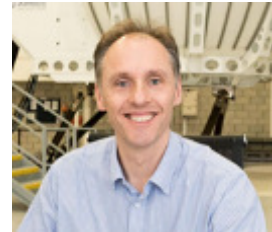

He has previously served as Minister of Labour, Minister of Consumer Affairs and Associate Minister of Transport. Prior to standing for Parliament, Simon was a Senior Crown Prosecutor in the District and High Courts.

Simon was educated at the University of Auckland, completing a BA (Political Science and History) and a LLB (Hons), and at Oxford University where he gained a Bachelor of Civil Law.

Dr. Steve Jarvis - Jarvis Bagshaw

Steve Jarvis PhD, left Cranfield University in 2012 to meet the increasing demand for his industry-focussed services. He applies human and safety science to flight operations, investigates incidents for airlines and conducts research to support critical risk judgements. He has acted in an advisory capacity to most UK airlines.

Steve is a Fellow of the Royal Aeronautical Society, a Chartered Ergonomist and Human Factors Specialist, and holds PhD and MSc degrees in aviation safety and human factors. He is an experienced private pilot and qualified on the Boeing 737 with Air New Zealand in 2009.

Kirk Hope – CEO, Business NZ

Before joining Business NZ, Kirk was CEO of the New Zealand Bankers' Association. Prior to that he was Executive Director of the Financial Services Federation, the industry body representing the non-bank sector. He has previously held a range of senior positions at Westpac, including Head of Government Relations and Regulatory Affairs.

A qualified barrister and solicitor, Kirk holds a Master's degree in law, focused on regulation of financial services, and a Bachelor and Post-Graduate Honours degree in political science. For five years he was a member of the Commercial and Business Law Committee of the New Zealand Law Society.

David Talbot – Research Director, UMR Research NZ

David is a Research Director at UMR - a research company which works with many of New Zealand's leading corporates on issues management, reputation, and evaluation. From a varied background in campaigning and communications, David brings the ability to translate qualitative and quantitative research findings into the real world strategic insights and comms advice that decision-makers require.

Aviation Conference Week Trade Displays

Stand 1 & 2

Business Name: Oceania Aviation
